

ECONOMICAL DURABILITY AND SECURITY

Meet the newest addition to our worldclass Defender Series, the Economy 65. This 65 gal shred bin offers an economical solution without cutting any corners. The only cutting we do are custom-cut lids that allows for insertion of oversized documents, hard drives, electronics, and PPE. We also provide an option for our highly secure HASP locking system.

The Economy 65 is durable and adaptable. This secure shred bin holds between 200-250 lbs, and can be serviced and lifted easily by most North American cart lifting systems. Large, flat areas also provide you plenty of space to showcase your brand with hotstamping or a custom sticker.

Introduce greater diversity to your customers or your offices by adding the Economy 65. We ship worldwide.

Specifications:

Defender Economy 65g
